

Discovery

Reduce litigation costs while maintaining control and minimising risk. Calibrate team size and expertise to meet your litigation requirements.

Solutions

eDiscovery

- Partner for access to an experienced managed discovery team with in-house, cloud-based software, transparent pricing, repeatable and defensible operating procedures, and reduced litigation costs
- We scale to meet your discovery needs – from day-to-day eDiscovery tasks to overflow resulting from spikes in workload

Document Review

- Access to a scalable team that can rapidly produce complex or project-based managed document review
- Delivered through key geographic locations with experienced, cost-effective document review teams adhering to strict processes

Data Breach Response

- Response service to minimise financial, legal, regulatory, and reputational risk
- Cutting-edge AI technology and advanced data mining techniques to streamline the response process and precisely identify the location of sensitive information
- 25% faster than traditional data breach reviews

Discovery

Services are offered in most major cities, on-site, or at permanent facilities.

Why choose Elevate for Discovery Services?

- Global eDiscovery teams with expertise and consistent training
- Competitive, predictable, and transparent pricing
- Award-winning document review teams, including certified project managers
- Certified RelativityOne Silver Partner and Everlaw Partner
