

Enterprise Legal Management (ELM)

Manage Billing Software for Law Departments

Spend Management and eBilling

The Elevate ELM Manage Billing software for law departments customises and automates the flagging of problematic billing entries before submission.

Monitor trends and uncover savings while ensuring outside counsel guideline (OCG) compliance.

Dedicate less time to invoice review and refocus your efforts on spend management and legal matters.

- Technology-enabled invoice review and visibility into supplier spend
- Provide law firms with OCG compliance transparency before invoice submission
- Enables the option to select line-item review
- Capture 100% of billing data from global suppliers regardless of location, size, or technical infrastructure

The Elevate ELM

Software that legal and business professionals actually use.

Law departments and law firms can view each stage of an invoice
