

# Contracts Insights for Post-M&A Integration

You've closed the deal – now comes integrating the contractual commitments you acquired.

Along with a merger or acquisition comes new or changed contractual obligations. Elevate's Contracts Insights for Post-M&A Integration provides a thorough solution for analysis and action, from identifying and documenting obligations and risks to repapering and finding opportunities for consolidation and cost-savings.

Contracts Insights for Post-M&A Integration is a human-in-the-loop, AI-powered service delivered by experienced contracts lawyers to handle the full range of post-transaction contractual integration activity, including:

- **Determining integration requirements** and documenting any required novations, assignments, or notices
- **Assessing counterparty risks** due to consent requirements, change-of-control termination provisions, deviations from preferred terms, and the post-merger accuracy of representations and warranties
- **Reporting on key provisions** inherited by the acquirer, such as limitations of liability, indemnities, and key warranties
- **Identifying cost-savings opportunities** from consolidating suppliers, negotiating better terms, and synthesising SOW-defined deliverables across service providers
- **Repapering existing contracts** and securing required change of control and/or termination notices, amendments, change orders, and novation agreements
- **Inventorying and organising** all contracts-related documents and preparing them for integration with contracts lifecycle management systems
