

## Post-Data Breach Response

When a data breach occurs, **every** minute counts.

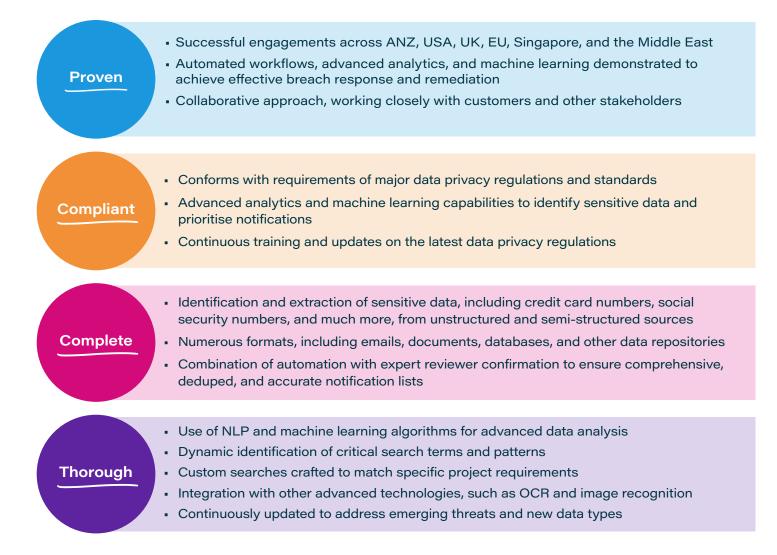

BO-90% Data Reduction

Elevate delivers fast, thorough, cost-effective post-data breach response services that minimise legal, financial, and reputational risk using a combination of legal experts, AI-powered technology, and proprietary processes.

## A Superior Approach

Accurate	<ul> <li>Data mining using AI and customised RegEx patterns and search terms for precise results</li> <li>Experienced lawyers and professionals adhering to standard operating procedures and playbooks to ensure reliable analysis and quality output</li> <li>Enhanced Data Alteration algorithms to identify and fix typo errors and minimise false positives/negatives</li> </ul>
Rapid	<ul> <li>Privacy impact assessment within 72 hours to enable swift and effective breach notification and response</li> <li>Permanent team of experienced data breach lawyers and the capacity to scale up a review team of 300+ people in less than 24 hours</li> <li>High-speed processing and scalability to handle large data volumes</li> </ul>
Automated	<ul> <li>Detection of sensitive information (PII, PHI, CCPA, GDPR, PIPEDA, FERPA ) without manual review</li> <li>Processes optimised for accurate merging and deduplication of entities</li> </ul>
Adaptable	<ul> <li>Services tailored to meet specific customer needs and requirements</li> <li>Specialised expertise in major industry sectors, including healthcare, finance, defence, technology, and many more</li> <li>Customisable workflows and playbooks to meet applicable regulatory requirements</li> </ul>
