

Enterprise Legal Management (ELM)

Manage Dashboards Software

Report Across All Your Data

Make decisions with confidence. Draw insights from data, accurately forecast future needs, and identify opportunities to contain costs.

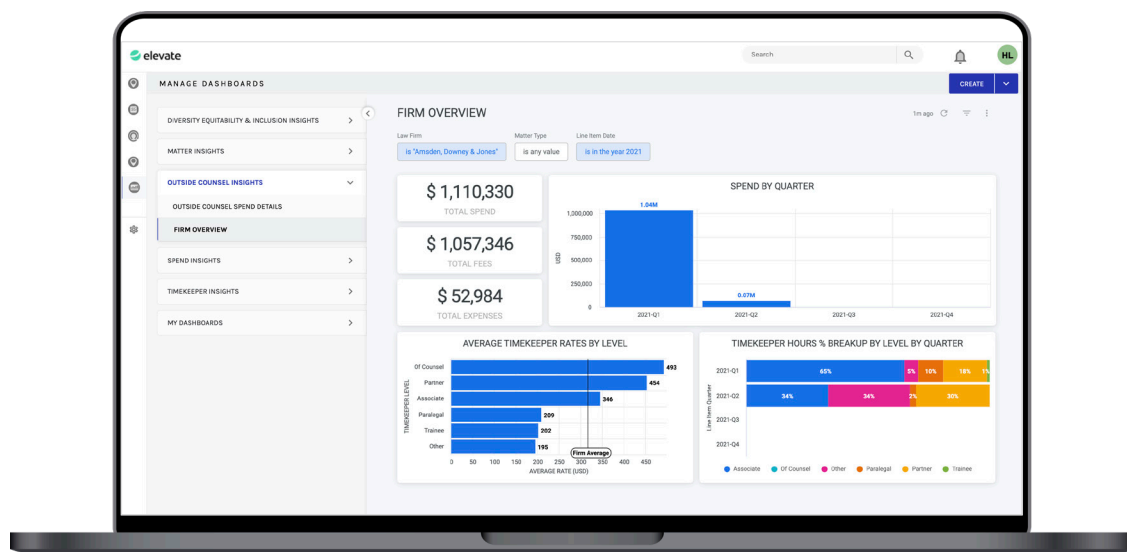

The Elevate ELM Manage Dashboards software ensures you have a complete view across your legal data.

- Visibility across data sources is centralised, including Elevate ELM modules and point solutions outside the ELM
- Gain insights into your transactional systems such as billing and finance and solutions with limited or difficult reporting
- Perform analysis using heat and scatter maps, bar, column, and pie charts
- Create your own dashboards with custom or existing fields, filters, and visualisations in a few clicks
- User dashboard accessibility can be restricted by geography, practice area, business unit, type of data, or a customised dimension

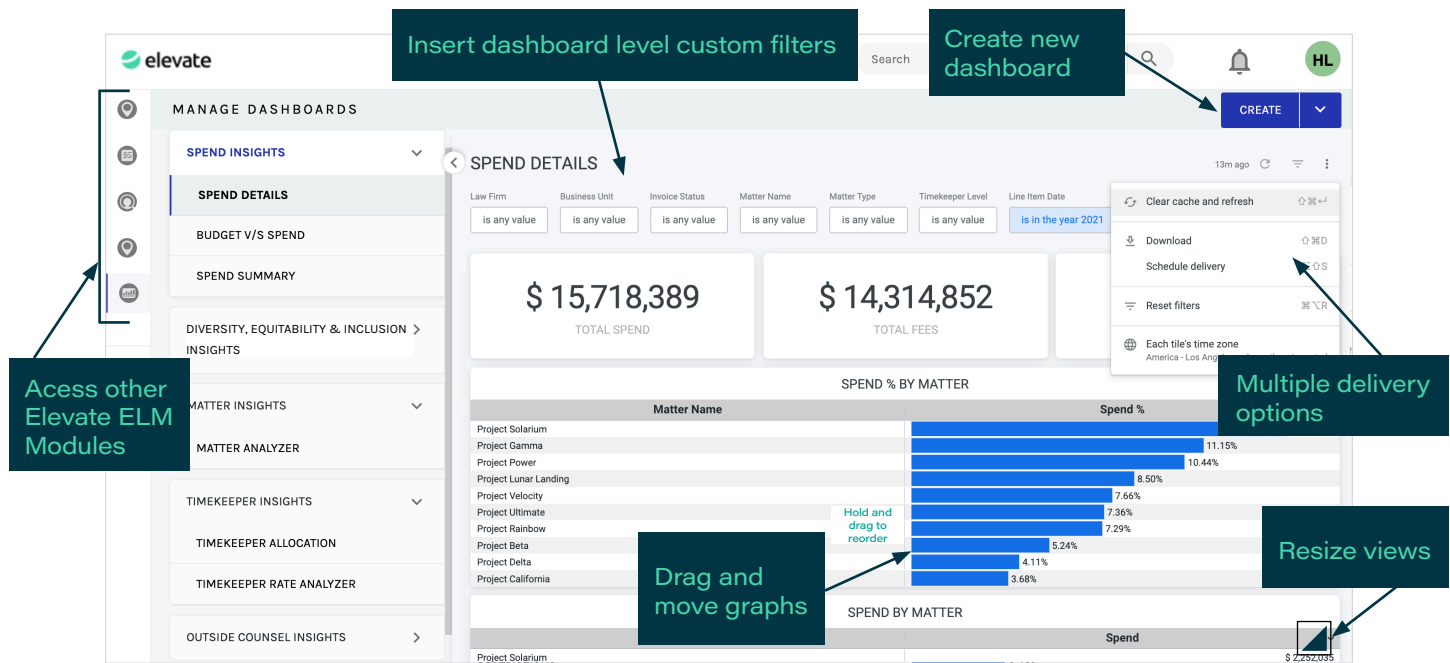

The Elevate ELM

Software that legal and business professionals actually use.

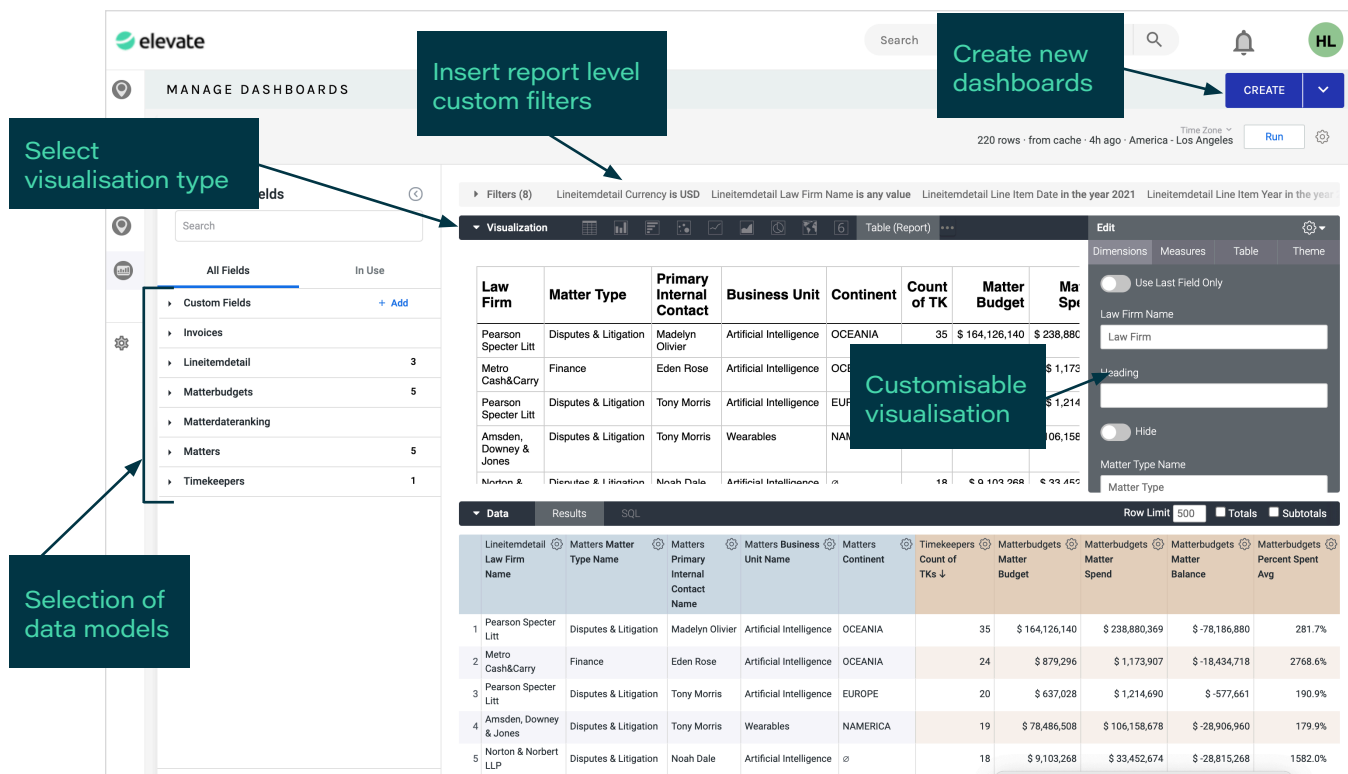

Preconfigured Dashboards

Visualise Your Complete Legal Spend Through Prebuilt or Personalised Dashboards

Personalise Dashboards or Have Elevate Customise Dashboards for You

Enhanced Scheduling

Multiple scheduling options

Filter dashboard data important to your audience

Advanced options include messaging and visualisation

Manage Dashboards helps:

General Counsel

- View top level KPIs related to spend, budget, and high priority matters
- Quickly identify high risk issues
- Generate new dashboard views as needs change

Legal Operations

- Keep up with changing data visibility and reporting requirements
- Gather and aggregate data across multiple sources
- Flexible data access and dashboards for different audiences

Business Unit Heads

- Access self-service dashboard views of matter and budget information
- Create personalised views for specific business needs
- See disparate data sources in a single view

Why choose Manage Dashboards from Elevate?

- Visualise and analyse all your legal data in one unified dashboard
- We integrate data from your point solutions into a single view
- Personalised dashboards allow you to build reports in the view most valuable to your organisation
- Manage Dashboards comes ready-to-use with pre-configured dashboards
- Share data across ELM modules, improve collaboration and eliminate data re-entry
- The Elevate ELM, legal operations software in one interconnected platform
