

Four Ways

Alternative Legal
Service Providers Can
Support Legal Ops
Professionals

→ by Erica White

01

[OF FOUR]

Fractional Support When/As Needed

(think project management, business analysis, legal ops, change management, reporting, data analysis, and more)

- * You know that project you never seem to be able to get to but everyone keeps asking about?
Elevate can come on board and run with it.
- * Are you managing numerous projects and struggling to find time for status reporting, change management, etc.?
Elevate can help with that.

02

[OF FOUR]

Roadmaps and Timelines

ALSPs can help you:

- * Identify and document law department gaps, pain points, and opportunities
- * Prioritise those opportunities
- * Prepare a strategic plan, roadmap, and timeline

03

[OF FOUR]

Gather and Analyse Data Such As:

- * Legal spend
- * Internal clients' sentiment regarding the law department
- * Tech and process use, gaps, and opportunities
- * Law department workload

04

[OF FOUR]

Defensible Legal Tech Selection

- * Gather and prioritise stakeholder requirements
- * Conduct methodical, data-driven vendor evaluations and selection
- * Prepare business case and selection report
- * Provide project and change management
