# Data and AI Consulting: Vendor Management

A Holistic Approach

Managing large litigation matters across multiple providers and teams is a challenge. You need effective, expert oversight to ensure everything runs smoothly. Strong collaboration between working teams and suppliers, aligned and streamlined workflows, and combined reporting is crucial to maintain a big-picture view when handling complex litigation. Elevate provides the oversight you need, with a focus on efficiency and continuous improvement to support you every step of the way.

Elevate's comprehensive approach to vendor management leverages technology and structured processes to drive success and efficiency by focusing on five key areas:

- **Program Goals:** Aligns with enterprise objectives to enhance overall performance.

- **Program Design:** Project management (powered by Elevate's ELM software) and technology for continuous improvement.

- **Law Department Ecosystem:** Integrates cloud technology and scalable resources to optimise legal workflows.

- **Implementation and Management Framework:** A structured approach for tech stack deployment and quality control.

- **Reporting and Intelligence:** KPIs ensure focus on business needs and continuous improvement.

Transparency · Continuous Improvement · Efficiency · Enterprise Empowerment · Harmony — **Pillars of Success**

Why choose Elevate Vendor Management?

- **Cost Savings:** Access unidentified ROI through Elevate's analysis of your ecosystem applications, contract design, pricing, workflow standards, and AI integrations.

- **Reduce Risk:** Learn ways to more fully safeguard your enterprise data including data minimisation options to help reduce unnecessary risk.

- **Establish Enterprise Workflows:** Create and enhance consistent and effective workflows that align key personnel and external partners with prescribed technology.

- **Cloud Tech:** Integrate your legal technology platforms with other cloud technologies such as M365 or Google Workspace, or add custom-developed tools to meet your needs.
