TAKEAWAYS FROM THE 2025
NETDILIGENCE® CYBER RISK
SUMMIT IN MIAMI

CLASS ACTIONS ON THE RISE

Breach-related class actions have doubled, with an increasing number of lawsuits stemming from incidents affecting smaller groups of individuals.

LEGAL RISKS EXTEND BEYOND IMPACTED INDIVIDUALS

More class actions are being filed by those not directly affected by breaches, adding new complexities for legal teams.

LATAM BREACH MARKET FACING KEY CHALLENGES

As the region's cyber landscape matures, organisations face new regulatory and compliance challenges.

RANSOMWARE ATTACKS SURGE

A 239% increase in ransomware incidents underscores the need for robust cybersecurity and rapid response strategies.

SECONDARY BREACHES

Threat actors are increasingly leveraging stolen data for multiple breaches, compounding financial and reputational risks.

HOW ELEVATE CAN HELP:

- **Post-Data Breach Response:** Cost-effective, AI-backed data mining, review, and automated notification list building
- **Discovery:** For resulting class actions related to data breach (eDiscovery experts, complex data solutions, consulting, data, and managed review services)
- **Information Governance:** GenAI and automation-backed solutions with experts to reduce the threat landscape
