

Scalable Review Teams

When Volume Doubles Overnight, Your Team Can Too

Scale your review teams within hours, fully integrated into your existing platform and workflows, while preserving defensibility, continuity, and control.

Within Hours

Deploy coordinated review teams that integrate into your protocols and production timelines.

Continuity by Design

Reviewers commit to staying through the matter, which reduces turnover, retraining drag, and coding inconsistencies.

Seamless Control

Your platform. Your quality controls. Your reporting. All with rapid, reliable scale when required.

The Challenge

AI is making first-pass review faster and more accessible. Adding headcount is no longer the difficult part. The risks that keep partners awake sit elsewhere: in high-stakes, highly scrutinized matters where defensibility, consistency, and expert judgment are tested. Under pressure, review consistency drifts. Drift is what gets examined. Scaling expertise without losing control is the harder problem.

Our Approach

Pre-Vetted, Experienced Reviewer Pool

Vetted and experienced reviewers are ready to deploy at speed.

Rapid Mobilisation

Significant review capacity can be added within hours rather than weeks.

Seamless Integration

You retain your own platform, quality control, reporting structure.

Continuity Commitment

Reviewers remain with the matter through completion, including extensions.

Flexible Scale

Team size can expand or reduce quickly as volume shifts.

Structured Teams

Experienced team-leads and managers are available to ensure scale without compromising quality and oversight.

Configurable Models

Engagement models can be structured to align with the needs and constraints imposed by your clients.

Ideal For

- Large-scale litigation
- Regulatory productions
- Cross-border investigations
- Breach response and other urgent matters

Why Choose Elevate for Why Choose Elevate for Review Team Augmentation?

- A proven partner to global firms handling complex, business-critical matters
- A commitment to defensible quality rather than headcount alone
- Reviewer feedback is monitored, and only those who have succeeded in your environment are redeployed
- A focus on continuity, with exceptional reviewer retention
- Multilingual capability for cross-border matters
- An hourly model that maintains client transparency and preserves margin control

Bench Strength When Needed

Elevate's resourcing capability includes 500+ vetted document review specialists who can begin within 24 hours. They work across more than 20 languages, either onsite or remotely through a secure environment, backed by 24/7 concierge support.

Client Perspective

When review volume spikes, speed isn't enough. What matters is consistency, continuity, and defensible quality. We've relied on Elevate's teams to integrate into our workflows, uphold our standards, and see a review through to completion. That operational reliability makes the difference under pressure."
