

Intellectual Property Consulting and Scalable IP Solutions

Monetise, Defend, and Expand Your IP Portfolio for Maximum Business Value

About Us

In-house teams are under constant pressure to deliver more, from global business protection and strategic IP use, to gaining a competitive edge, and minimising risk, all within a limited budget. Whether you're looking to outsource specific tasks or entire functions, we provide scalable support across the IP lifecycle, without compromising quality, security, or strategic alignment.

We integrate seamlessly with your IP team by:

- Plugging into your existing tools, systems, and processes
- Aligning with your SOPs, quality standards, and workflows
- Providing full transparency with dashboards and reporting
- Coordinating with your inventors, lawyers, or outside counsel
- Ensuring consistency, security, and process compliance

70,000+
IP projects delivered

\$3.6B+
in business value created for customers

Why Choose Elevate?

Our AI-assisted, human-in-the-loop workflows combine advanced technology with cross-domain expertise, spanning high-tech, engineering, and life sciences, to deliver faster, cost-efficient processes, enabling IP decisions that are not just informed, but strategically superior.

- **Trusted partner** on 70,000+ IP projects over 17 years for top Fortune 500 companies and Am Law firms
- **Global team of 550+ IP experts**, providing multilingual, multi-jurisdictional support across diverse technologies
- **Accredited in portfolio management and monetisation** by [IAM Strategy 300](#), [IAM Patent 1000](#), and the [Global Business Excellence Awards](#)
- **Recognised globally for patent information searching**, with accolades such as the [Brian Stockdale Award](#) (PIUG), the [Susan Helliwell Award](#) (QPIP), and the [Patent Olympiad 2024](#)
- **Global delivery network** spanning 80+ countries, with flexible delivery models, including hourly, FTE, productised, and outcome-based options

Our expert services, combined with proprietary tools, deliver complete, efficient, and end-to-end solutions tailored to your IP needs:
