

Legal Resourcing

Scalable access to legal expertise through interim, permanent, project, and subscription-based models

Our Approach

Legal departments must scale capacity, manage cost, and secure the right expertise at the right moment, without compromising quality or control.

Elevate Legal Resourcing solves this by providing flexible, predictable, and expert-led solutions that adapt to how modern legal teams operate. We support in-house departments and law firms with experienced lawyers, paralegals, and legal operations, risk, and compliance professionals, deployed through delivery models designed to balance speed, quality, and cost certainty.

Our global community covers all seniority levels, practice areas, and jurisdictions. Whether you need immediate interim support, longer-term capability, or a strategic extension of your team, we deliver practical, business-ready solutions that integrate seamlessly with your team.

Why Choose Elevate for Flexible Legal Talent?

- Expert-led delivery:** Former in-house lawyers, legal operations leaders, and experienced staffing professionals who understand real-world legal delivery
- Multiple delivery models:** Interim, permanent, project-based, and subscription options designed to flex with your needs
- Global scale, local expertise:** In-market engagement teams supported by a global delivery platform
- Proven quality:** Chambers Band 1 ranked provider with high repeat engagement and long-standing client relationships
- Predictable and transparent commercial structures:** Flexibility balanced with cost control
- Highly engaged talent:** Proactive engagement management, continuous support, and access to Elevate's KnowledgeNetwork™ and learning platform

Our Solutions

Interim & On-Demand Legal Talent

Contract experienced legal professionals to augment your team on a full-time, part-time, or ad-hoc basis. Talent works under your direction, either on-site or remotely, providing immediate capacity for leave cover, workload spikes, specialist expertise, or time-bound initiatives.

Roles include: lawyers (all levels and practices), paralegals, legal operations, risk, compliance, and related specialists.

Subscription-Based Legal Support

Predictable, on-demand access to a dedicated team of experienced in-house lawyers who operate as an extension of your legal function.

Our Subscription Service is designed for legal teams that have a regular but variable need for support and want continuity, responsiveness, and cost certainty, without committing to permanent headcount.

Ideal for legal departments that:

- Need recurring support, but not on a fixed schedule
- Want a true on-demand extension of their team
- Value predictable, fixed-cost resourcing
- Prefer a dedicated team that understands their business and ways of working

Supported areas: commercial contracts, technology, employment, intellectual property, and data protection.

Permanent Hiring & Recruitment Solutions

We support permanent recruitment for legal departments and law firms through contingent search and flexible recruitment models. From role definition and compensation benchmarking to screening, interviewing, and negotiation, we provide access to high-quality candidates from our global network, reducing time-to-hire and secure the right talent.

Our **Resume Accelerator** enables internal recruitment teams to retain control of the hiring process while accessing pre-screened, available candidates on a pay-as-you-progress basis.

Scalable Review & Project Teams

Rapidly stand up and scale document review or project teams to meet litigation, regulatory, or transactional demands. We provide pre-screened reviewers and review managers who can deploy within 48 hours, operating either on-site or through secure remote environments. Teams are experienced across all major review platforms and can support multilingual and multi-jurisdictional matters.

Payroll & Secondment Support

Mitigate start-date delays and administrative complexity through payroll and secondment solutions. We can employ and second professionals back to you until internal approvals or onboarding are complete, maintaining continuity without permanent placement fees.

For law firms, we also support client secondment requests by providing high-calibre lawyers who act as effective brand ambassadors while meeting specific expertise, location, and duration requirements.
